## Measuring & Ordering

**CONFIDENTIAL**  
DEALER ONLY

**SUMMERSPACE**  
OUTDOOR LIVING REDEFINED

Projection							
C = Measurement from top of mounting space to deck	5'-9"	6'-11"	8'-6"	10'-2"	11'-8"	13'-2"	14'-6"
E = Measurement from the bottom of the valance to deck							
7'-6" (90")	72"	71"	69"	67"	66"	64"	62"
8'	78"	77"	75"	73"	72"	70"	68"
8'-6"	84"	83"	81"	79"	78"	76"	74"
9'	90"	89"	87"	85"	84"	82"	80"
9'-6"	96"	95"	93"	91"	90"	88"	86"
10'	102"	101"	99"	97"	96"	94"	92"

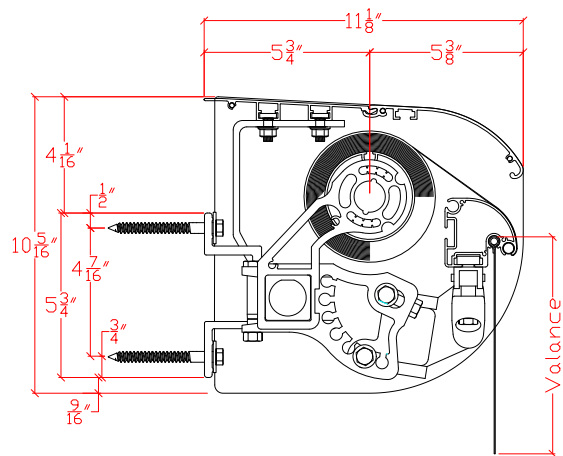

The chart above denotes the approximate clearance with the pitch set in the factory set position.

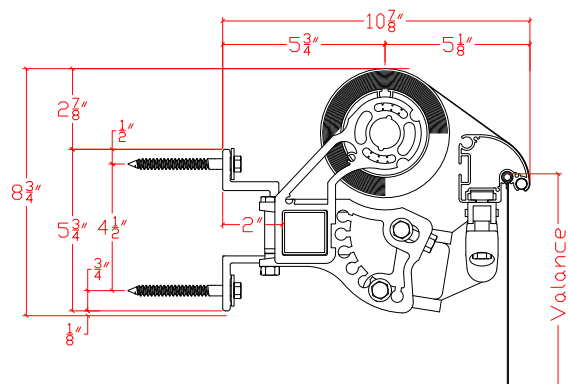

1. Determine width of awning (A). This requires a clear span with no obstructions. Be sure light fixtures, down spouts, etc. are not in the way. The awning will require between 9"-10" of mounting space (B); Performance 300 Full Cassette needs only 6" of mounting space. A minimum of 7'-6" (90") is required from the deck or patio to the top of the mounting space (C).
2. Select the projection that best fits your needs (D).
3. Select your fabric choice that best complements your home. Fasteners for mounting on wood are included.
